

HD-1 XPansion Sounds—Vol. 1

This set of 256 new HD-1 Programs includes nuanced pianos for specific applications (brighter sounds for cutting through on stage, upright piano sounds inspired by classic British rock, 80s synth and stage pianos, etc.); vintage electric pianos, reed pianos and clavinetts; jazz, rock, and church organs; acoustic strings and vintage string keyboards; brass and woodwinds; vocals, bells, and more.

Some Programs require EXs1

Some of these Programs use Multisamples from EXs1; if EXs1 is not loaded, they will not sound properly. All such Programs include “EXs1” in their names.

Transferring the sounds from your computer

After downloading the sounds:

1. Un-zip the downloaded file.

The zip archive contains the HD1_XP1.PCG and HD1_XP2.PCG files, and these instructions.

2. Save the two .PCG files to a USB hard drive, flash media, or an ISO9660 CD-R/RW disk.

3. Connect the USB storage device to the OASYS, or insert the CD-R/RW disk into the OASYS drive.

4. If you're using a USB storage device, go to the DISK mode Media Information page, and use the Scan Device menu command.

5. Go to the Disk Utility page, and use the Copy menu command to copy the two .PCG files to the OASYS internal hard disk.

Loading the sounds into internal memory

Each PCG file contains a single bank of Programs, which by default will load into USER-G. You can also load them into other banks, if you prefer, by following the instructions below.

Loading the sounds into the default bank (USER-G)

To load the sounds into the default bank:

1. Go to the Disk Load page.

2. Select the desired .PCG file—either HD1_XP1.PCG or HD1_XP2.PCG.

3. Press the Load button.

A dialog box appears.

4. Leave the .PCG Contents menu set to All.

5. Press OK.

The sounds will be loaded into Program bank USER-G.

Loading the sounds into different banks

You can also load the Programs into any HD-1-capable bank (INT-A through INT-E, or USER-A through USER-G). To do so, use the **Open** button on the **Disk Load** page to tunnel down into the .PCG file until you see the individual bank, and then load it as desired.

List of Programs

HD1_XP1.PCG

Number	Program Name
G000	New Harmonic Grand Piano
G001	Natural Warm Grand
G002	Dark Warm Grand
G003	Dynamic Grand Piano
G004	Grand PF On Stage
G005	Grand PF mono On Stage
G006	Thin Bright Grand Piano
G007	Metallic Grand
G008	Stereo MIDI Grand w/Pad
G009	Piano Looper (SW1=Loop)
G010	LoFi Ac.Piano
G011	Upright Comp Piano
G012	Honky Tonk Piano
G013	CP Electric Grand
G014	CP-8080
G015	Pickup E.Grand Piano
G016	Piezo Piano & Pad SW1
G017	Electric Grand 2008
G018	M1 Grand PF On Stage
G019	M1 Piano
G020	M1 Piano w/Delay
G021	M1 & Pad
G022	AcGrand + E.Piano
